## How To Reach Us

UR MAIN OFFICE, mills, wharves, dry houses, etc., are situated at *Neponset*, in that portion of the city of Boston formerly comprising the town of Dorchester. Customers wishing to visit our main office or mills should take a train on the New York, New Haven & Hartford Railroad at the *South Station*, in Boston, purchasing a ticket for Neponset. The distance from Boston is less than five miles and the time of transit from ten to fifteen minutes. There is also communication every few minutes by electric cars.

For the convenience of customers and others who have not sufficient time to visit Neponset, we have branch offices in the city proper, one at *77 Summer Street, Room 54*, where may be found representatives of this company, and an exhibition of fine interior finish in cypress and other woods. The other office is at our *Haymarket Square Salesroom*, 1 Sudbury Street, corner of Merrimac Street, where may be seen a full line of doors, stair-work, etc., as well as an elaborate display of fine woodwork. We are also represented upon the floor of the Master Builders' Association, where we have a box for the reception of orders and other communications from persons who find it convenient to use them. We shall be glad to have a representative call upon you if desired.

### *Phone Numbers:*

## Introduction

E DESIRE to call attention not only to the patterns in this edition of our catalog, but to the complete rearrangement and renumbering of the old. The renumbering has enabled us to group and classify the patterns more appropriately, and to index them carefully — improvements which will be greatly appreciated.

Our lumber and woodworking plant is complete. We furnish *everything in wood or woodwork* and invite inquiry as to prices on mill work of every description. Standard patterns of mouldings will be found in this catalog, but we furnish many special designs as well as designs contained in all other commonly used moulding books. Such patterns may be ordered by number, as we keep the books on file for reference at all times. We make

MANTELS, COLUMNS, DOORS, SPECIAL  
CABINETWORK, BRACKETS, SASH,  
WINDOWS, BLINDS, GLAZING, ALL  
KINDS OF WOODEN TANKS, GREEN-  
HOUSE MATERIAL AND HOT BED SASH.

Our lumber yard, sheds, and wharves contain everything in the way of *lumber and timber of all kinds*, including kindred material, such as shingles, clapboarding, etc. Our yards and mills are at the service of our customers.

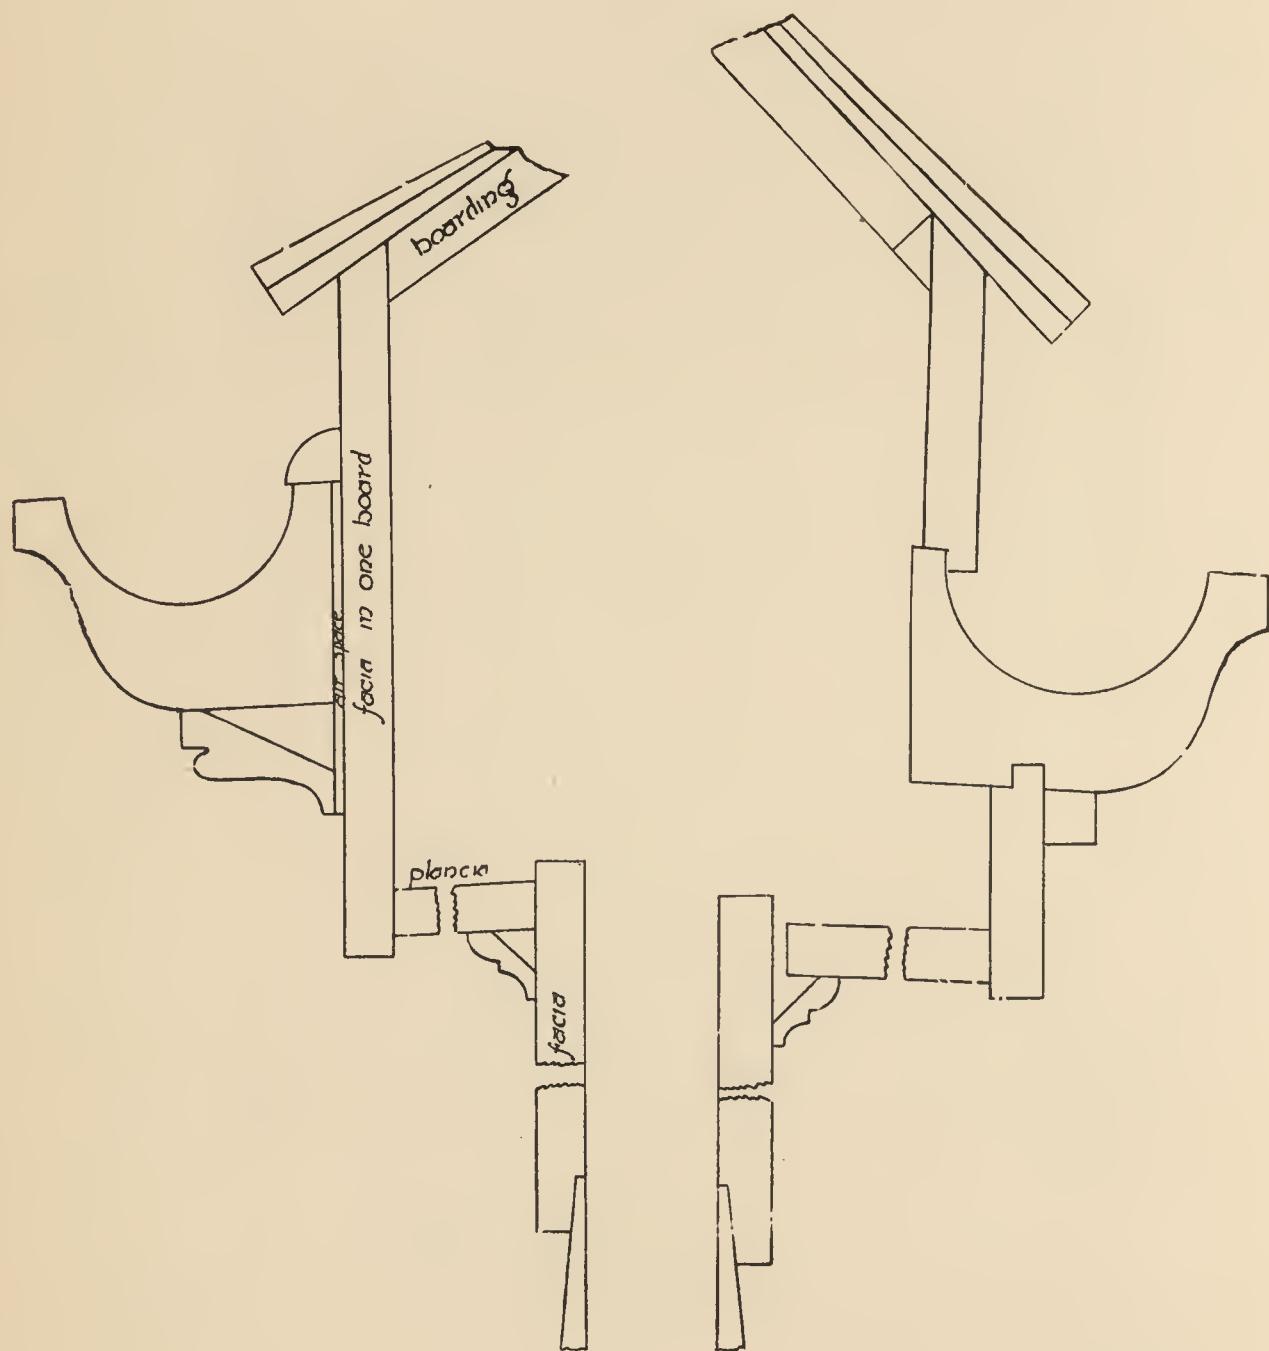

THE A. T. STEARNS LUMBER COMPANY
